ZOEDONE

ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE
Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."
Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectualy destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

South African Ostriches
Ex-Sarmiento from
CAPE TOWN
This vessel has arrived at B. Aires with a cargo of
200 Ostriches
which we now offer for sale to the public of the River Plate.
The majority are full grown breeding birds from six or eight years old, and there is also a number from six months to four years old. They are all selected birds, many were bred by ourselves from the first stock, the rest are from the most celebrated Ostrich farms in Cape Colony.
An Ostrich yidds from £8 to £30 sterling worth of feathers every 6 to 9 months, the value of the plucking, and time occupied in growing the feather depending upon the state of the pasture; in this country where the camp is so much more luxuriant and grain so much cheaper than in Cape Colony the larger amount will probably be nearer the average return.
One pair of breeding birds produce from 30 to 60 chickens per annum, which sell readily in Cape Colony when a few months old from £20 sterling each; if only this low figure be obtained the yearly income will range from £600 to £1200 sterling, earned from one pair of birds.
There is not a more profitable industry in the world than Ostrich farming, and so highly is it valued in South Africa that several petitions have been presented to the Cape Parliament praying that exportation be prohibited, and one bill is we believe actually before the House, seeking to place a heavy export tax upon these valuable birds.
We have therefore every confidence in bringing this shipment to the notice of the farmers of this country.

This celebrated brand of Kerosene, manufactured by the Chesebrough Manufacturing Co. (the manufacturers of Vaseline) is without doubt the best in this market. It is perfectly pure, gives a brilliant light and is absolutely free from the disagreeable odour most kerosene has,

Since 8 o'clock the doctors notice a very sensible improvement in the President's condition. The success of the last operation allows good ground for hoping for a favourable termination.

CONSOLIDATION LAW.

At last the Provincial Chambers have passed the law consolidating the Provincial public debts in an issue of 6 per cent bonds, for twenty millions gold dollars, which will be ample to pay off the debts due by the Provincial Government to the Bank, call in the Emprestito Popular, redeeming those bonds at par, as also the Provincial Treasury Bonos, which for some time back absorbed many millions of floating capital in this market.

Governor Rocha will probably promulgate the law to-day, and Minister Uriburu will at once be in a position to receive offers from European capitalists, for the stock which we understand, according to the new rule, will be negotiated here direct between the Minister and the agents of the bidders for the loan.

The business, is perhaps, the most important ever transacted in this market, since, aside from the great benefits arising from the payment of the debts due to the Bank, and thus strengthening that institution and enabling it to resume specie payments, it throws millions of fresh capital on the market seeking new investment, since it pays off at par the holders of the Emprestito Popular and the Bonos del Tesoro, which are known in this market under a less euphonious title. During the debate on this bill in the Deputies Dr J. F. Lopez made a remarkable speech on the measure, which gives a rather new view of the question, and will doubtless be read with interest by the public.

At the conclusion of Deputy Viale's speech

Dr. J. F. Lopez said—I believe, Mr. President, that the actual Conversion Bill is unprecedented in the annals of measures discussed by Provincial Legislatures: it means political honesty and economy on the part of the Executive. It is one of the most prominent events in our Provincial records.

The political consolidation of the Argentine Republic was only achieved yesterday, and now we strive to successfully crown its financial consolidation. The great political event insured respect and stability to the nation: it paved the road to its great destinies, and was the forerunner of the present great financial bill, which, to nations as to individuals, means the return to honest policy, order and integrity.

The Message of the Executive on this important financial reform, written in a clear and graphic style, may be termed economical truths applied to the financial condition of Buenos Aires. The Bill is perfect in its form and in its purpose. It is transparent truth, and must meet with the warm approval of all. Nevertheless, I may make several observations.

Whilst studying the financial foundations of the Bill I have detected new views on the State, which, owing to the original doctrines they embody, may be startling. I may be mistaken in my appreciations, but, when taking my seat as Deputy, I took an oath to act according to the dictates of my conscience. It is my duty as a Deputy to expound same, and I will, therefore, immediately enter on the subject. The conversion and consolidation of the Provincial debt to the Bank of the Province, is the debt of a Government to a Government institution—or the debt of a State to its State Bank.

There is something very apparent to traditional routine as regards the custom of the Government of the Province negotiating loans with the Bank of the Province; in other words, it is extraordinary that a merchant banker should borrow from his own firm. The Government of the Province is the State of the Province—the Bank of the Province is a Bank of the State—they constitute the same person—the same interests. The Bank of the Province belongs exclusively to the Province, that cannot owe its own property, nor be its own debtor. I, therefore, do not comprehend how the Province of Buenos Aires is obliged to pay what is owed to the Province of B. Aires. The Provincial Bank belongs to the Province alone, and the sums which the Province has taken from its Bank only constitute a relation of figures with its own establishment.

What necessity is there then to convert a debt that does not exist; since debtor and creditor are the one person? All the acts of the Provincial Bank, its funds, organic laws, boards of directors and notes of emission bear the stamp of the Province. The debt contracted by the Government of the Province is also in the name of the Province. Therefore, the very same individual is both creditor and debtor.

When discussing the banking relations between the Provincial Bank and the Government, ergo, between State and State, we cannot view the question in the same light as if the Province owed the London Bank, the Italian Bank, or some third party, constituting a bona fide creditor. The Prov. Bank is no third party in regard to the Province, as both Government and bank are only branches of the administration of the Province.

Viewing the question in this light I think that the Province may economize some $200,000,000, which will be otherwise imposed on the taxed population, in order to pay what the province itself has spent. Thus the millions lent constitute the money given by the State Bank to the State. This is so true, these loans were only effected after previous sanction by the Provincial Legislature.

It is, therefore, not under the pretext of a loan that the Province can be taxed over again; it can only take place in obedience to a law passed to the effect of disposing of the funds of the Province, whether for banking or Government purposes. The sums we at present destine to the bank are not to pay off a debt; these funds are provided with a view to fortify the credit of the bank and fill its vaults. But as a banker cannot lend to himself without becoming bankrupt, as happened with the Argentine Bank, the funds of which went to the private transactions of its director as a loans; thus the Government, in order to dispose of funds for banking or Government purposes, needs a law of the Legislature to the effect. But this measure is a mere Government act of the State. This view of the

matter is so natural that an honourable Deputy unwittingly proposed to convert the debt with the profits of the Bank. I call the attention of my honourable colleagues to these facts in order to save the Province from the burden of another two hundred millions; otherwise the taxed population pays twice over the debt to the very debtor."

THE QUIET RAMBLES OF A YOUNG NATURALIST.

(By E W. White F.Z.S.)

No. VIII.

(Continued)

Misiones suffered much from the Paraguayan war, and during the many revolutions, far and near, that have afflicted the Argentine Republic since that epoch, and whose pulsations have reached and wrecked her frail bark, in spite of her remoteness from the centres of political power, she has ever remained the victim of culpable neglect, doomed to possess either no Government at all, or the alternative of a vicious assumption of autocratic tyranny.

But although her own 'alma mater' slights this the fairest of her offspring, not so the Brazilians, who look with a very longing eye on so valuable a territory, which has indeed for a long time been populated almost entirely by them and a sprinkling of Orientals and Paraguayans: nay, what will the proud Argentine say when he knows that his fellow-countryman is such a 'rara avis' in Misiones that the Imperialists actually have the audacity to dub him a 'Gringo' on his own soil? Such however is the hold of the Brazilians that they form the only important section of the inhabitants; their hybrid speech mingles with the chaste Guarani, to the exclusion of all other, theirs is the only commerce, in their sole hands are the yerba and cattle trades, and as if to accentuate the invasion of these Hicsos into the Argentine Delta, the subjects of Dom Pedro therein assume public positions, such as that of Juez-Fiscal &c, and draining the district of its money to enrich their own country, purposely keep it a sealed book to Argentines.

During the revolution of 1880 however, the Brazilians, disgusted with the lawless state of Misiones, abandoned it for their own coast in considerable numbers, but like the Israelites of old, taking care to leave not a hoof behind, all their merchandise, and property to the extent of at least 150,000 head of cattle, most of which if not all, by the bye, were stolen, followed or preceded them; so that the Mesopotamia is now somewhat denuded of colonists, and the yerba crop in consequence will, this season, scarcely reach a third of its customary yield.

It is indeed high time for the National Government to send forth its life-blood into this distant tentaculum to establish there a central force which shall restore vitality to a paralysed limb; such authority as has been exercised hitherto in this 'No man's land,' has partaken very much of the despotic, abounding in arbitrary law without either justice or protection. The universal hope and prayer of those residents who have the welfare not alone of Misiones but of the nation at heart, is that the Executive will forthwith appropriate this rich tract, an act needing no expeditionary force costing the country millions to subdue hostile Indians, but simply the insignificant expenditure of the official triune requisites, paper, ink and red-tape. The benefit of such a policy would be solid, as numbers of capitalists, eagerly awaiting the fiat of incorporation to invest gold unlimited in its fertile acres, are in the existing order of things afraid to venture upon so hazardous a step. Another direct advantage would result from the federalization of Misiones, namely, the exact determination of limits with Brazil which, if allowed to lapse much longer, will eventually become a source of perpetual danger to the mutual interests of both countries, as in the question of Patagonian bounds with Chile: in fact the Imperialists are even now fast encroaching, and at no distant period will undoubtedly take possession of the Upper Yerbales, as they already hold complete and exclusive control over the Alto Uruguay, without apparently any remonstrance on the part of this Government. At Itaqui they possess an arsenal, protected by three gunboats and two monitors, whereas the Argentines have not a single vessel above Concordia; forty leagues above the place where I am writing (Concepcion de Misiones), they have founded a military colony of 500 soldiers, and all the Brazilian towns along the coast are garrisoned, whilst on the opposite bank stands the lamb meekly surveying the wolf, not only without a single warrior to guard the fold from foreign foe, but even a solitary blue-coat to establish civil peace.

Although I believe a three-cornered treaty exists with provisions that Brazil and the Oriental and Argentine Republics should enjoy equal rights and privileges along the Uruguay, with prescribed dues, and that no improvement in the navigation of the river should be undertaken singly by any one of the contracting parties, but that all such attempts should be the result of joint action, this triple alliance is practically a dead letter, both with regard to its immunities and obligations. The condition of the former may be fully illustrated by the well-known fable of a certain lion who went out to hunt in company with other beasts of the field: but a few additional particulars will render the case more specific. The dues imposed by Brazil upon foreign craft cannot be justified. The Mensajero, a steamer running in connection with the East Argentine Railway, and which, under the Argentine flag, visits the various Imperial and Argentine ports lying north of Monte Caseros, according as the tide permits, has to pay a light tax in Uruguayana of twenty patacons each trip, and the beauty of the matter is, the precious light does not exist. Brazilian efforts to gain absolute control over the river are, indeed, so continuous and sustained, that most of the shipping engaged in the Alto" Uruguay now fly the Imperial flag, not in search of but to escape a golden fleece.

The consideration of the obligations must be reserved for a succeeding chapter.

(To be continued.)

EDITOR'S TABLE.

Yesterday was a brisk day. The President's Message to Congress on the federalization of Misiones (which we hold for our next) was published: the stupendous scheme (said to have Rothschild at its back) for railways in the far South and 2½ millions immigrants in 15 years was given round in pamphlet form; the grand land sale and lunch at Baltar and Quesada's came off; gold went down; shares went up; in fact everything was lively. B. Ayres is nothing when it's not lively, but there is seldom reason to complain of it on this score.

Captain Manton called on us yesterday and requested us to state, in reference to the mutual wire-cutting said to be going on amongst the Telephone Companies, that his company has cut no one's wires, as he would not countenance such a proceeding.

The fetes on Saturday will be grand. The Lord Mayor has asked the citizens to hang out their banners on their outer walls, to make the city as gay as possible. The illuminations will be on a gorgeous scale, and the fireworks also.

We had a glance yesterday at Mr. W. Martin's pamphlet on the Passion Play, and can promise those who will attend his lecture tomorrow night, at the Coliseum, a rich and rare treat. The work is most gracefully dedicated to General Osborn, the United States Minister.

The Industrial Club's rooms will be thronged to-night to hear ex-President Avellaneda open the course of winter lectures there. It will be a treat. Few have heard Dr Avellaneda speak without wishing to hear such a finished orator again, and they can do so to-night free, gratis and for nothing, as the 'entrada' is 'mix.' Eight o'clock sharp.

What's the meaning of what we read in our colleagues as to the mausoleum of General San Martin in the Cathedral being in a dirty and neglected state? This is really most discreditable.

The Cabinet Council held on Tuesday about the City Improvement Works ended in a decision not to sell them but to finish them for the State's account. We trust they will now be taken in hand vigorously, as they are badly wanted.

The Government of Corrientes likes 'protesting' better than the Executive of Santiago does. The latest news is that Governor Gallino is about to 'manifest' and protest against the nationalization of Misiones. He 'doth protest too much methinks'. Nationalized Misiones will be.

The *Tribuna Nacional* hints that Lopez Jordan is thinking of another patriotic expedition to Entre Rios. If so, his thought is by no means a happy one. We thought he had turned his sword into a reaping hook long ago.

The National Government has decided that all exhibits for the Continental Show in Plaza Once in Feb. next shall be carried free on the National Railways. It is said that Paraguay intends to 'come out strong' at the Exhibition.

In place-hunting circles there is now great anxiety owing to the fact that a large number of additional employees will be required in the Municipality when Congress passes the Law organizing a new system of city administration. The bootmakers must have fine times of it with all the shoe-leather worn out in running after these paltry appointments. Shall we ever shake off 'empleomania' in this country.

A solemn funeral Mass will be celebrated this morning in the Merced Church in memory of Lieutenant Colonel Juan Jose Rocha, father of the Governor of this province.

Several interesting items will be found in our Supplement to-day.

Telegrams from Brazil to Montevideo announce that there is much excitement at Porto Alegre, owing to the supposed intention of the Imperial Government to suppress the Custom House at that port.

The news from the West Coast shows that Chile is not out of the Peruvian wood yet. Several towns have issued protests against the Calderon Government and declared that they would only recognise Piérola as the legitimate President of Peru. The names of the protesting cities are not given, but it may be safely inferred that they are at a safe distance from the Chilian army of occupation, and out of range of the guns of the Chilian fleet. Baquedano says he resigned his pretensions to the Presidency for the everlasting South American reason on such interesting occasions—fraud, intimidation, and meddling of the authorities. 'Sic semper.'

Mr. Charles Calvo, the distinguished commentator on International Law, has just published a new and greatly enlarged edition of his work, 'International Law, its Theory and Practice.' The Paris papers speak of it in the highest terms of praise, and at a meeting of the Academy of Moral and Political Science copies of it were presented by Mr. Calvo to that body. M. Franck, one of the most distinguished members of the Academy, delivered a brilliant eulogium on the work, and M. Giraud, who followed, declared that he did not hesitate to classify it as the foremost of all the works yet written on International Law, by reason of its profound erudition and elevated doctrines. The Argentine Republic may well feel proud of such a citizen as Dn Carlos Calvo.

Morality appears at a frightfully low ebb in Montevideo. The *Siglo* announces that on the night of the 2nd instant *eight* infants were left at the Foundling Hospital.

Two hundred ostriches from the Cape of Good Hope arrived here yesterday. We welcome them most warmly to the Plate and hope the climate will agree with them, and that they will find no scarcity of old iron and other food suited to their delicate stomachs.

We beg to express our thanks for a copy of the last issue of Mr. Arrotea's 'Diccionario Biografico Nacional,' a most interesting and valuable work for those who wish to know all about the great men of the Republic, past and present.

The Finance Committee of the Municipality have recommended that the lease of the Colon Theatre be not renewed, on the terms asked by the shareholders. Good.

The 'menu' of the dinner given by the United States citizens in Montevideo on the 4th gives one a furious appetite on reading. Lucullus never sat down to such a feed, as French cooks were unknown to him. The feast, of which 'filets á la Lafayette' and 'croquambouche Washington' were the tit-bits, began with real turtle soup and ended with old brandy. It was given at the Hotel de Paris.

Another extreme opposition paper to be called *La Tribuna* will start on the 15th inst. Its programme is implied in the one word 'intransigente.

Advices from Paris announce the marriage there, to a wealthy banker, of Mrs McKinlay (née Rosa Bemberg) so well-known in Buenos Aires High Life. The ceremony took place on the 14th ult.

There was a large and most distinguished congregation at the Cathedral yesterday, at the Funeral Mass for the late Mrs Dorrego.

The Variedades Theatre will be re-opened on Saturday with a splendid programme. The house is now quite another theatre, as it has been painted, decorated and altered in a most tasteful manner, the cafe abolished, a delightful promenade established etc. No smoking will in future be allowed; in fact the V. has determined to turn over a new leaf and be 'tout a fait comme il faut' for the future. It is about time, as there was a deal too much 'wild oats' in its past career. We have no doubt that, like most reformed rakes, it will find respectability to pay far the best in the long run.

The Asuncion papers announce that the absurd mania for digging for buried treasure, which has always prevailed in that country is more furious than ever, and now even the women have taken to it. We fear that there is not over much hope for a country infested by so many Whongs. President Caballero should put his heel on this aberration.

Mr Olivieri, who was formerly a broker on the Bolsa here, is now a member of the Italian Parliament, for Peune, a district in the Abruzzi.

The Brazilian Government has offered a reward for the best invention for preventing railway accidents in general. The engineering brains of England and the United States have been pumped dry in this direction without any very tangible results up to the present moment.

The statutes of the joint-stock company promoted by Messrs. Cayol and Urbain, to build an Alhambra in Calle Cuyo, between Maipu and Esmeralda, were given round yesterday. The capital is $1,000,000 m|c., in 40 shares of $25,000 each.

All kinds of entertainments will be given in this new theatre. It strikes us forcibly that the public amusement business, like so very many others, is being most outrageously overdone in this good city. Two new theatres are now projected, although all the existing ones, except the Colon, are empty night after night.

The *Union Francaise* publishes a tramway story which 'si non e vero, etc. The owners of a city line received a letter from a citizen stating that one of the 'mayorales' had given him a counterfeit $100 note in change, and that the writer trusted they would make it good to him. No notice was taken of the epistle, and in a few days more a second came to hand, stating that the writer, having received no answer to his first letter, had passed the bad $100 to another mayoral of the line, and consequently considered the account between him and the Empresa as satisfactorily settled.

To-day for the first time there was a break on 26 as the cash price of gold; prices opened at 26 and closed at 25.95, but at after hours there were many sellers offering at 25.90, and it looks as if soon the figure of 26 will vanish in perpetuity from the black board. For the end of the month only 250,000 pats. sold; prices opening at 25.90 and closing at 25.85; at after hours much offered for this date, but little sold. Total sales of day, 548,000 pats.

In Cedulas, as we anticipated, there is a rapidly growing business and large purchases made by outsiders on long dates; 374,000 Cedulas were sold, yet only 11,000 changed hands; this shows the market prices for cash firm and ready Cedulas scarce.

In Nat. Bank Shares prices rule firm, some large purchases on time by outsiders; there was a good deal of talk about the dividend and the new currency bill, but what most of all supports this stock is the constant accumulation of capital in the market; money is each day growing easier.

Exchange was done at 49⅛, and at 5 francs in paper, and at 5.21 in gold. Most of the exchange brokers said that the Nat. Minister of Hacienda is drawing and the business concluded to-day, we believe, at 5.18.

Baltar & Quesada's grand land auction of 100 square leagues of land was the chief business of the day; the fine auction mart was laid out as a banquet hall, and 'free champagne lunch given to over 500 bidders. The scene was one that calls for more time than at our disposal to properly depict; as soon as lunch was over Mr Florencio Madero, standing on one of the tables, began business by reading various documents which clearly proved that the lands in question were not only in the province of Santiago del Estero, but that even if any question between the Provincial Governments arose, it would not affect third parties, as evidenced in the auction of the Venado Tuerto lands. Everyone seemed so satisfied on that head that not a few were impatient at the auctioneer dwelling so long on the subject. All the papers being read, the first lot was put up with right to the bidder to take one league or the whole 100 leagues, or as many as he thought proper; the bidding grew very fast, and the lots were sold as follows:—

Lot.	Sq. league.	$f. per league.	Buyer.

Lots 1, 2, 3 and 4 not sold.

Total sale 84 leagues at an average price of 1,000 pats per league. Immediately after the sale one of the purchasers received an offer from a well known broker of 500 pats per league profit on the 'boleto' which was declined, and for the lots unsold Sr Caneppa refuses anything under 1,000 pats per square league. Thus terminated this great auction which is highly significative of the times; we shall probably have many other such auctions now that auctioneers have found out the way to get bidders; whatever may be the opinions of people on the means employed the result stands, and people may yet live to see that land even at so remote a quarter as Santiago del Estero at six pence an acre was good buying. At half past 3 o'clock the auction closed, and bidders adjourned to the Bolsa where there was much anxiety to hear the result.

The Neva is expected in Montevideo tomorrow from Santos.

There is no foundation in the rumour that the National Minister of Hacienda passed yesterday a large amount of exchange. We heard on the Bolsa that the Minister received an offer of 5.19 for two millions francs, but declined same, as his bills are now the same as sight, maturing on 21st August, and his rate is 5.17, which is much under the market rate; besides there are very few takers in the market; even the banks dont care about taking and in the open market importers have at the moment very little to remit.

The flush of money in the market is beginning to be talked of. We heard of discounts to-day at 6½ per cent in paper. It seems the banks feel a scarcity of pagares and hence it is that the rates of discount show a marked downward tendency.

The sale of 2,000 head of cattle in the North at 239 m/c 'al corte' is reported, 10 per cent novillos. This shows a fall in the price of stock.

A chacra in Lujan, 50 squares, was rented to-day by the owner for 35,000 m/c per annum. The place only cost the owner 50,000 m/c; the land goes under wheat, maize and lino.

Another sale of deposit wool is reported, 13,000 ar. in one lot at 80. The wool we note is gradually moving off. We still have over 30,000 bales to ship.

A business of retroventa is offering in the market, 2 millions at 10 per cent interest; business not yet done.

The message of National Government to Congress on the Misiones question is an all important paper, which we shall publish tomorrow. As will be seen from Mr White's interesting papers, which we are now publishing, the Misiones is a place of great future, and the National Government seems at last determined to wake it up after a sleep of over a century.

It may always interest the market to point to the remarkable changes in exchange operations between now and this time last year. The Provincial Bank has drawn nothing this season, whilst last year it drew as follows:—

The Provincial Bank, according to its own statement, drew in £ stg. during the year 1880 $994,324, Francs 18,624,759, making a total in pesos fuertes of 10,390,972; all this business has vanished from the market this year; the loss in commissions to the brokers is always an important item. Of the 15 branches of the Provincial Bank only two show losses namely San Pedro 97,414 m/c, Exaltacion de la Cruz 56,065 m/c, the others as appears by the following list gave good results:

Moneda corriente.

The pagares discounted by the Provincial Bank in the year 1880 amounted to 387,744,835 currency against 204,534,129 m/c, which shows an increase in this line of discounts of 183,210,706 m/c, and in the Letra Department we find the following—

Letras renewed in 1879	$2,782,068,331 m/c.
" 1880	2,581,971,648 m/c.
Diminution....	$ 200,096,783 m/c.

Mr Freund, C.E. and public surveyor, despatched yesterday his carts with instruments and provisions to Azul, where his men with 'tropillas' of horses are awaiting him in order to go by Guamini and Fuerte Argentino to the Rio Colorado, where the measurement of a section of National lands will commence towards the end of the month of July. The survey will include the islands of the Rio Negro, and embrace the whole stretch of land between the rivers Colorado and Negro near the island of Choele-Choel, a surface of about 400 or 500 square leagues, which will have to be divided and marked in the field in lots of 4 square leagues. The survey will include the exact description of the quality of the ground, vegetation, existing lakes and brooks, hills, establishments, and of whatever may be of interest for intending settlers; also the determination by astronomical means of the various corner points, so as to fix them in the field, even if the corresponding marks by chance should be removed.

The mails from Rio bring the following important advices:—

The Brit. barque Dorothy, Captain Sleightman, from Shields for Ceara, put into Plymouth on May 23rd with water tank leaky.

The Brit. barque Dunelm, 507 tons, Captain Ross, 65 days from Liverpool, bound for Valparaiso, put into this port leaky on the 13th instant.

The French str. La France, which left this port on the 12th instant for Marseilles with coffee, put into Bahia on the 17th instant for coals.

The Amer. ship Thomas Dana, 1,445 tons, Captain Sisson, 135 days from New York, bound for San Francisco, put into this port in distress on the 15th inst.

The Amer. ship Manuel Llaguno, 1,733 tons, Capt. Stackpole, from New York, which put into this port on the 6th inst., left on the 14th instant for San Francisco.

The Amer. barque Laurens, Capt. Snow, which entered this port in distress from Hamburg on the 4th April, having finished her repairs, left for Hongkong on the 19th instant.

The Blonde, Capt. Evans, from Cardiff for Rio Grande, put into Milford on May 18th with six stanchions and rail carried away. She will be taken to Castle Fill to repair damages.

The Amer. str. Mississippi, 1,320 tons, Capt. Holmes, 24 days from New York, bound for San Francisco, put into this port for coals on the 15th inst. and proceded on the 18th inst. for San Francisco.

The Brit. brig Adrian, Capt. Jones, from Maceio for Boston on Feb. 12th with sugar, was abandoned very leaky on April 4th in 31° N, 48° W. The crew were taken off by the Ital. barque Amati Figli from New Orleans and landed at Genoa on May 16th.

The British barque Duchess of Lancaster, Capt. Roberts, from Greenock for Rio de Janeiro, in going out from her anchorage at Lamlash, on the morning of May 21st, stranded on the West side of Holy Island, but got off the same evening and anchored in the bay. She was making no water.

The London papers publish the following—

"Central Argentine—The traffic of this line is increasing very rapidly. During the last 4 weeks [to April 17th] the increase on the same length of line is nearly 20 per cent.

"Montevideo Gas Co.—The accounts of this company for the year 1880 only show a moderate degree of prosperity. The free balance is little more than enough to pay 6 per cent dividend, which absorbs £32,519, and to add £3,000 to the reserve, which now stands at £43,000. Montevideo does not prosper like B. Aires. The former has hardly fulfilled the expectations of its friends; yet those who have seen it, and had the best means of studying its opportunities, have a strong conviction of the greatness of its future. They may be right—we fancy they are,—but at present there is not so much "go" on this side of the water as on that.

"Central Uruguay—It appears that the applications for shares recently issued have been very largely in excess of the number available for issue, and the Directors have, in consequence, been obliged to allot rateably upon the existing holding of the applicants, irrespective of the number of shares applied for. Of course people were only too glad to get shares at £7 5s, which were selling in the market at £8 10s each. Only a year or two ago these shares used to stand in the market at about £3 each. Our Journal of Jan. 4th, 1879, quotes them at 3½. The shares are £10 each, and if the traffic continues to improve we should think they will be worth ultimately at least the full £10."

ARGENTINE FINANCES

BY Messrs LAMAS AND MONGUILLOT

We extract the following from an important pamphlet published a few days ago—

We have had the honor to forward to His Excellency, President of the Republic, the appended project and Memoria. We know that His Excellency devoted some time to their perusal and then submitted them to His Excellency the Minister of Finance.

As the project and memoria embody a most important project and study of the consolidation of debts of both Governments to the Bank, we have deemed it opportune to publish them for the benefit of the public. All those interested in the matter may judge for themselves of the merits of the publication.

J. F. Monguillot—D. Lamas's

Project—

Base 1.—The circulation of the Argentine Republic shall consist of an emission of the Nation, not exceeding $f.60,000,000.

Base 2.—The emission to circulate throughout the Republic, exclusive of all other paper money.

Base 3—The Mint of the Nation will hand to the different Banks, according to demand, with preference to those who at present enjoy an emission of their own, an equal amount of banknotes to the bonds, bearing 4 per cent interest, which the Government receives, and will guarantee the emission.

Base 4—To the latter effect 60 millions of bonds at 4 per cent interest shall be emitted, of which 35 millions will be handed to the Government and Bank of Buenos Aires, in payment—

1st—19,000,000 for the properties added to the Nation by the Capital, and for the external debt, which the Province shall continue to pay.

2nd—16,000,000 to pay off the debt of the Nation to the Bank.

Base 5th.—The Province and Bank of Buenos Ayres must substitute their emissions by National notes.

Base 6th.—With the products of the balance of 25,000,000 bonds, placed at par, shall be amortized at their nominal value :—

1.—The Treasury Bills.

2—The Roads and Bridges.

3—The Provincial obligations carried to account of the Nation.

4—The capital in bonds of the National Bank, and those of the following laws :—1st October, 1860 : 16th November, 1863 and 21st October, 1876.

5—The internal Foreign Debt.

Base 7th.—The funds necessary for the payment of interest and amortization of those debts of bases 4th and 6th, shall be destined to—

1st—The service of the interest or the $f.60,000,000 National Bonds of basis 4th.

2nd—To the promotion of a reserve fund for the conversion of the emission of notes.

Base 8th.—The funds for the purpose of conversion may be temporarily invested in stock, quoted abroad.

Base 9th—The stocks deposited according to base 3rd. shall be returned, after previous payment in notes of their nominal value.

Base 10th.—Those stocks which might not have been withdrawn for the return in notes, shall be considered extinguished by the mere fact of the conversion into gold of the notes in circulation.

THE RECENT MURDER

Estancia Miguelete, July 1st.

To the Editor of the *Standard*.

Dear Sir,

Reading the article under 'Editor's Table' in the *Standard* of the 26th ult., I could not but be surprised at a paragraph according to which I had been 'barbarously murdered.' As I am, however, still in full enjoyment of life, I hasten to correct your mistake and to put you in possession of the facts, for which purpose you will kindly grant me a short space in your valuable columns.

The victim of the crime, committed on the 16th ult. at about 6 p.m., Mr. Fred. Stieger, a native of Mecklenburg, Germany, has held for the last 24 years the position of 'mayordomo' on the estancia, deservedly respected and esteemed by all who knew him. In consequence of ill health and advanced age, he had lately resolved to retire from the post he so efficiently had occupied for such a long time, little suspecting how quickly and how cruelly his dreams of rest should be brought to a close. As regards the further details of this unfortunate affair, they are mostly correct as stated by you, with the following slight modification regarding the behaviour of the adopted son of the murdered man. The lad, about 19 years of age, not only came forward to the assistance of his father, but was struck senseless to the ground by two successive blows on his head. Having partly recovered consciousness, and finding that the peon had disappeared, he quietly slipped out of the patio—the two assassins still being in the house—caught a horse and came to me. I immediately sent to the Comisario and went myself to the place of the murder, arriving too late, however, as the assassins had fled in the meantime. On searching the ground we found a revolver, and several days later a horse with 'recado' was discovered, entangled in the adjacent 'monte,' on the banks of the Arroyo San Juan. An individual, in whose possession revolver and horse had been repeatedly seen, was apprehended. As he answers the description, given by the wife and son of the deceased, of one of the assassins, and as his brother-in-law strongly resembles the second, there is every hope of seeing them convicted.

I feel great pleasure in being able publicly to testify to the great energy and activity displayed by our highly respected Gefe Politico, Colonel Don Benigno P. Caraubula, who, immediately after receiving the information, came to the place of the murder, and at a distance of some 15 leagues from Colonia, using ever since all the means at his command to bring the assassins to justice. His subordinates, inspired by the zeal of their chief, and justly indignant at the fact of their name being invoked in committing the crime, are in active search of the second criminal, who, though unfortunately still at large, will doubtless soon be in their hands.

The horror caused by the crime in our hitherto so peaceable neighbourhood is indescribable, and I am but the echo of all well-thinking people here if I express my hope that the competent authorities will punish the criminals with the utmost rigour of the law, allowing no false ideas of philanthropy and an ill-advised leniency to influence their judgment, but, by making an example of the assassins, strike terror into all the bad characters our departments may harbour.

You will kindly excuse my having occupied so much of your valuable space, but I felt it to be my duty, in justice to your readers and to myself, to make the truth as public, and by the same means, as the erroneous facts are which you published.

I remain, dear Sir,

Yours truly,

Carlos Lambrechts.

FOOTBALL AT PALERMO.

B.A.F.C. v. Z.F.C.

(*Return match played on 29th. ult.*)

It is not often that it falls to our lot to witness such a fine display of muscular energy as that of Wednesday, (the match was played in two periods of 40 minutes), and the ground being 'not too hard', the wind keen and drying, the gentle sex well represented, and a full muster of players, went far towards reconciling me to my fate.

At 12.30 p.m. the ball was put in motion by the 'old' team which mustered on this occasion eleven, including the Captain, W. H. Mackern; it was looked for immediately by the Zingari, under G. E. Image, fifteen all told, and after some little play the last named scored a 'rouge'; no time was lost in putting the ball again into play, and again a 'rouge' was scored by the Zingari; by this time the old team evidently thought they had let them have plenty, and some splendid play followed : so exciting was it that the 'back' of the Zingari got upset 'forward' and left an open goal, an opportunity which was taken advantage of by one of the 'old team' who, after a splendid run, laid the ball gently down in an unguarded spot. Result a 'try'—badly kicked. Shortly after time was called. On play being resumed both sides seemed to be more cautious, as, notwithstanding some strong efforts on the part of the 'old uns', no advantage was gained by either side; in this period of the game one of the best forward players of the Zingari met with an accident, in the shape of a bad fall, resulting, we are sorry to say, in the dislocation of the kneecap.

Where all played well it would be invidious to mention names, but at the same time we may say that tripping is not allowed, and that zeal is not good play always. We do not like the Ruby Union rules; they seem to us too intricate, so much so that we heard one of the Captains call for a 'copy of the rules' during the game. Why not play association ?

The Half Yearly Meeting of this useful Society, which has just completed its Tenth year of existence, was held on the 27th ult., when the Committee placed before its members the Report for the six months ending 31st May last; from which we extract the following interesting details—

"Since our last report we have had an accession of 9 new members, the resignations meanwhile having been only 3, leaving at present 30 active members who hold amongst them 396 shares, representing subscriptions amounting to $990 gold, monthly.

"The continued exercise of economy and careful manipulation of the funds, have enabled us to declare a dividend at the rate of 8½ per cent per annum on share accounts, and 7½ per cent on deposit accounts, which cannot fail to be extremely satisfactory to members, as our investments are, and have been of the most unquestionable security."

The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation ; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean, no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
